

MISSING MANGO MATCHING GAME!

How to Play:

- Shuffle Fruit Cards!
- Lay out cards face down in rows, forming a large rectangle, make sure card do not over lap!
- Decide who goes first (usually youngest player will go first)
- The first player chooses a card and carefully turns it over. Be sure not to bother the surrounding cards. The player then selects another card and turns it over. If the two cards are a matching pair for example two apples, then they take the two cards and start a stack. The player is awarded another turn for making a match and goes again. If the cards are not a match they are turned back over and it is now the next players turn.
- The next player chooses their first card and turns it over. If it is a match for one of the cards the previous player turned over then they try to remember where that matching card was and turn it. If they are successful at making a match they place the cards in their stack and choose another card.
- If the first card turned over was not a match for one previously turned over the player selects another card in an attempt of making a pair.
- If they are unsuccessful in making a match they flip the cards back over and play is passed to the next player.
- The game continues in this fashion until all the cards are played.

Winning the Game:

- Once all the cards have been played the player with the most matching pairs is the winner.
- The player with the Matching Missing Mangos gets an additional "match" added to their score!
